

Product Manager, Hospital

Astellas Pharma Canada is currently searching for a Product Manager, Hospital.

Description

Responsible for the creation, preparation, coordination and monitoring of comprehensive marketing plans for assigned products. Primarily entrusted with improving the competitive position of the assigned products in the market and observes closely the competitive situation, measuring the effectiveness of the planned strategies to assure that objectives of the assigned products are attained.

Essential Job Duties

1. Contributes to cross functional team in the development of annual brand plan. Utilizes Marketing and Sales Research, prepares annual marketing programs for assigned products, which include analyses of market situations, problems and opportunities, the preparation of promotional strategies, sales forecasts and market share objectives. Establishes sales and market share objectives for assigned products; develops programs to achieve these objectives, and monitors their execution. Employs all elements of the tactical plans as specified in the brands' marketing plans.
2. Submits budget recommendations for assigned products and manages these budgets to forecast each year.
3. Targets 10 to 15% of time in the field to obtain first hand evaluation of strategies and to keep abreast of changes in the marketplace.
4. Supplies the representatives with promotional materials consistent with the Marketing Plan's strategies and tactics to be used for the sole purpose of communicating to health care professionals the benefits and advantages of assigned products. Controls and reviews the effectiveness of the promotional plans on an ongoing basis and recommends changes as necessary to reach or improve upon the objectives.
5. Verifies the text accuracy of scientific and promotional literature, and other elements associated with assigned products to assure conformance with the requirements of the Therapeutic Products Directorate of the Department of Health and Welfare, PAAB, Innovative Medicines Canada Code of Ethical Practices and Company policy.

6. Collaborates with Medical Affairs to identify, design and deliver medical communications, Advisory Boards, Medical Education Programs in order to deliver value to customer and support brand growth objectives.
7. Delivers product / brand training to field force. Co-ordinates with Business Unit Director in the preparation of comprehensive training manuals and programs.
8. Collaborates with Director, Patient Access and Government Affairs on development of pharmacoeconomic justifications and or analyses for federal/provincial and, if applicable, hospital jurisdictions.
9. Attends all relevant medical conferences. Attends all sales and marketing meetings during the course of each year, presenting promotional strategies and marketing updates for assigned products when and where applicable.
9. Interacts with Product Specialists, Finance, Regulatory, Customer Service Operations and Medical areas of Astellas.
10. Collaborates with Business Unit Director on the planning, coordination and execution of other assigned special projects.
